Comments on teaching (strengths, areas for improvement)

[Student 9119](#) - Best TA I've had at MIT...always super excited to teach and help me learn

[Student 12239](#) - Amazing! so passionate and enthusiastic. Helped me learn a lot.

[Student 17080](#) - One of the best TAs I've ever had. She was really enthusiastic and make really great jokes.

[Student 17314](#) - Amelie is the most wonderful TA!!! SO full of energy and good humor about biology. She really cares and is just a wealth of knowledge! I want to be just like Amelie when I am a TA!

[Student 17968](#) - Had so much excitement and humor about the material! Well-organized recitations that really helped me learn.

[Student 20575](#) - Enthusiasm is great--she really cares and is an effective teacher

[Student 21218](#) - Amelie is the best. Her enthusiasm is contagious and she's always able to figure out what I'm asking. I found her recitations clear and informative.

[Student 27458](#) - Amelie really knew had to condense and give a great recap of our week's worth of lectures into an hour. She's always cheery and enthusiastic and definitely helped us learn. Even when we weren't feeling participative, her jokes and side comments made the recitation go by more smoothly. I will miss her as a TA!

[Student 27612](#) - Amelie was very enthusiastic and organized. She did a great job.

[Student 27658](#) - Amelie, you are the best. Honestly, though. You made the information clear, you incorporated your own style and jokes. You were knowledgeable without being intimidating. Keep doing what you're doing, because it works, and you will be a great scientist and a great professor in the future.

[Student 39871](#) - Super enthusiastic and knowledgeable, thank you!

Comments on teaching (strengths, areas for improvement)

[Student 5372](#) - Amelie was great! She was so full of energy and she honestly loved what she was teaching - it was great to learn from someone who was knowledgeable and passionate. I honestly learned more in recitation than I did in lecture. One recommendation would be to be able to go through the questions on the handout in plenty of time.

[Student 7299](#) - I didn't have Amelie for recitation, but I wanted to comment on how amazing of an instructor she was. She brings a great amount of energy, knowledge, and personal concern to her office hours and review sessions. She went out of her way to help students learn and inspire them to pursue biology, even in uncomfortable or unwelcome environments.

[Student 7621](#) - Sometimes gets a little bit carried away and goes off topic and hten we do not have time to cover all that we wanted to cover.

[Student 9478](#) - You are the primary reason I've gotten good grades in 7.012, thank you so much for everything!!!

[Student 13370](#) - Excitement is good, even if it is kind of weird (but amusing) to basically claim that (almost) everything is your favorite part of biology.

[Student 15661](#) - Great enthusiasm. Engages the classroom very well.

[Student 15757](#) - Extremely great at both grabbing interest and being able to explain what was taught in lecture. Always willing to help and very knowledgeable in the subject.

[Student 19525](#) - Best TA.

[Student 20885](#) - Solve the problems in the recitation handouts, they are very helpful. Don't let students interrupt so much with questions not related or beyond the class material, because that loses the track of the recitation and wastes time.

[Student 22006](#) - Super helpful and passionate and patient and great at explaining!

[Student 25935](#) - She is the best recitation leader there is!
